

I am strongly opposed to No-Code International filing petition based on their filing. I am an Extra Class Licensed Operator and a participating Volunteer Examiner.

I earned my Amateur Extra license by studying for and passing the 20 WPM Morse Code examination. Being proficient at this level is an immeasurable benefit to me as an Amateur Radio operator.

I see the Morse requirement as a crucial element, essential to the continued health and vitality of the Amateur service.

As a Volunteer Examiner, I have never seen evidence that the Morse Code testing requirement is an impediment to licensure as an Amateur radio operator.
